www.yooneecho.dev | github.com/yooneecho-cho | linkedin.com/in/yooneecho-cho

SKILLS

- Proficient: JavaScript, React, Redux, Node.js, Express.js, Sequelize ORM, HTML, CSS, Git, Github
- Knowledgeable: TypeScript, Mocha, Chai, React Native, SQL, Figma, Adobe Illustrator, Photoshop

PROJECTS

AccountaBee, Front End Engineer, [www.github.com/AccountaBee](https://github.com/AccountaBee) October 2020

- A cross-platform mobile application that provides social accountability to achieve users' goals
- Designed entire UI/UX wireframes and prototypes in Figma
- Implemented an animated splash screen and a news feed with animated buttons
- React Native, Expo, Redux, Firebase Authentication, and Node.js Server deployed to Heroku

Meal :P, Full Stack Engineer, [www.github.com/yooneecho-cho/MEAL-P](https://github.com/yooneecho-cho/MEAL-P) January 2021

- A meal plan, grocery shopping list, and budget managing tool
- Redux to manage complex application state and achieve a unidirectional data flow, React for UI performance, only re-rendering the parts of the DOM that need re-rendering, Material UI, recipes API, and SequelizeORM to handle PostgreSQL in Node.js using Express

HYKM's Bookstore, Full Stack Engineer, [www.github.com/HYKM/graceshopper](https://github.com/HYKM/graceshopper) September 2020

- A mock e-commerce web application for textbooks
- Implemented React components to display product views with RESTful API routes and cart feature
- Wrote unit tests for React components, database model with Mocha and Chai
- React, Redux, Node.js, Express, Sequelize, PostgreSQL

WORK EXPERIENCE

Alexander Wang, Assistant Handbag Designer, New York, NY July 2015- October 2016

- Communicated with international, domestic suppliers from initial prototype to mass production
- Reduced hardware development cost by 10% by building a metal hardware library system
- Managed and mentored around 4-6 interns per a year

The Row, Handbag Design Intern, New York, NY January 2015- May 2015

- Optimized development process by quickly producing technical specification of prototypes
- Improved meeting quality with buyers by creating presentation slides with various prototypes

EDUCATION

Grace Hopper Program at Fullstack Academy, Remote July 2020 – October 2020
Certificate in Software Engineering

Parsons School of Design, New York, NY August 2018 – May 2020
MFA, Design and Technology (STEM),
Dean's Merit Scholarship, GPA 3.5

Fashion Institute of Technology, New York, NY August 2011 – May 2015
BFA, Accessories Design, GPA 3.2
